All embracing maintenance contracts are also available which include inspection and service visits, labour and standard call out costs, to ensure efficient operation of your plant at all times.

## Building & Construction

Operating as the principle contractor and/or planning supervisor in accordance with CDM regulations, Demeva expertly handle all aspects of controlled environment design and build projects.

We take careful control of everything, including Civils, Steelwork, Cladding, Electric's, Plumbing, Loading Bays and Dock Levellers etc.

## Insulation

As a specialist in the design and construction of all types of insulated environments for Coldstores, Chillstores, Blast Freezers/Chillers, Spiral Freezers and Food Production Areas, Demeva utilises the very latest techniques and materials to create perfectly controlled conditions.

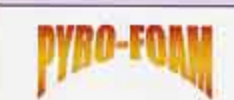

From Composite Floors, to the erection of Insulated Walls & Ceilings, plus the installation of all types of doors, Rapid Roll, Up & Over and Sliding, our teams of expert insulation erectors ensure that every project is built and detailed to perfection.

Demeva are Manufacturer Approved Installers of the following Insulated Fire Panel Systems

Stonewool Structural Insulated Fire Panels

Phenolic Foam Fire Resistant Panel Systems

Insurer Approved Fire Safe Insulated Temperature Control Systems

Firemaster Walls and P.I.R. Fire Panels

High Performance Flooring and Whiterock Hygienic Walling

## Fire Rated Systems

In recent years, working to the directives of the Building Control Authorities and the demands of Insurers, Demeva have gained unparalleled experience in the design and erection of Fire Rated Insulated Panels to LPBC requirements.

So that today we offer our customers the security and benefits of our knowledge and experience.

## Refrigeration

Our highly experienced commercial and industrial refrigeration engineers are fully conversant with the needs of today's refrigerating and air conditioning systems. Thus enabling Demeva to ensure the Design, Installation and Commissioning of the ideal system.

- Coldstores & Chillstores
